VANITY CASE HAS ELECTRIC SPARK

(By Associated Press)

LOS ANGELES, Cal., Jan. 31.—An Angeleno went walking through the darkness with a maid of his acquaintance some two years ago. Something transpired that made it desirable for the young lady to re-touch her lips. Her escort held matches while she peered in a vanity case mirror, and burned his fingers. Recently he completed an electrically lighted vanity case on which he will ask a patent. When you open the lid the light comes on.

SETTLEMENT IS EFFECTED RATE OF \$311 A TON

Fortune smiles upon Benjamin Franklin Betts, George Fox, Harry Cunningham and C. Y. Poy, the men who control the leasing privileges on the Golden Eagle claim of the Hudson Mining company at Royston. These four men today are making division of \$16,234.20, minus royalty and expenses, from the shipment of 52 tons and 400 pounds of ore that was consigned to the smelter of the United States Smelting & Refining company at Salt Lake City.

The settlement sheet from the shipment of ore which was sent out two weeks ago was received fully a week earlier than was expected, and shows values as follows: 29 ounces in silver, \$8.60 in gold, 29 rye, very acid, or a gross value of \$311 a ton. While the assay values showed \$350 a ton, the returns were fully up to expectations.

The Betts lease, as a result of this ore shipment, will have a 100-day lease to receive shipments from a total extent in the Royston district and will prove an incentive to owners of property and the various leasees throughout the district by proceed with development along head-lined lines. While it is true that this ore from the Betts lease came from above a depth of 35 feet, 400 ore showing on that level is strong, with indications that the shoots will be found to be persistent at much greater depth. Suffice to say that even though the ore vein should not continue on its downward course another foot, the operators will realize a small fortune from extracting the ore that is known to exist through the present workings.

CHI TO PHILLY WATER ROUTE NOW CERTAIN

(By Associated Press)

CHICAGO, Jan. 31.—Without waiting for action on the proposed Great Lakes-St. Lawrence deep water route to the sea, Chicago will have regular steamship service to Philadelphia next summer, according to officials of the Chicago Steamship company. Five ocean-going steamers have been purchased to start the line. All the ships come within the present dimensions of the Welland canal locks, so they can pass from the lakes to the St. Lawrence.

One of the vessels, the George W. Clyde, left Philadelphia for Chicago several weeks ago loaded with sugar, but after being buffeted by winter gales off the Nova Scotia coast, was caught by ice in Lake St. Clair, above Detroit, and is now held there waiting for a thaw. The Clyde is able to plough through six-inch ice in the open lakes, but the narrow St. Clair has been jammed with thick ice.

The five ships will make regular ports of call, including Detroit, Montreal, Quebec, Boston, New York and Philadelphia, according to J. C. Hoskins, general manager of the line.

If you want the electric thawer call Tonopah Electric & Tire Co. Phone 62. J28-ft

PERSONAL

JACK BLAKE left this morning for Reno and Carson City on a business visit of a few days.

HERBERT DECHAMBEAU, Royalty leaser, is a business visitor to Tonopah today.

BEN FARRINGTON is here from Goldfield, where he is operating a lease on the Jumbo property.

DAVE ASPLAND, general agent of the T. & T. with headquarters in Goldfield is a business visitor to Tonopah today.

EDMUND LYDON, who has been residing at Taft, California for the last three months, arrived home this morning, satisfied that Tonopah is the best place after all.

E. B. STINSON, traveling agent of the traffic department of the Southern Pacific, accompanied by his wife and little daughter, were outgoing passengers this morning, their destination being Reno.

ARTHUR CONNORS, who is interested in a lease on the Felsen claim of the Hudson Mining company at Royston, is a visitor to town. Mr. Connors reports considerable activity in the new camp despite the stormy weather.

FRANK McNAMARA, manager of the local institution of the United Cattle & Packing company, who was called to San Francisco in regard of the illness of his brother, Thomas, arrived home this morning. He reports the brother slowly improving, with prospects bright for a complete recovery.

(By Associated Press)

DETROIT, Mich., Jan. 31.—First actual steps toward bridging the Detroit river between this city and Canada have been taken. Engineers have started borings at several points between Twelfth street and River Rouge on the American side and between Windsor and Ojibway on the Canadian side, to determine the location of the structure.

The borings will find bedrock on which to place tower piers, on which cables will be anchored, 100 feet below the surface of Detroit river. Results of the borings will be known within the next month.

The span will be 1802 feet, the longest single span bridge in the world. The present record for length is held by the cantilever bridge at Quebec, which is 1800 feet long, or but two feet shorter than the one to be built here.

Surveys to fix harbor lines will be started within a few days. Accurate measurement of the distances across the river also will be made to match street lines and permit engineers to fit the bridge steel. Actual construction of the bridge will start with the coming of favorable weather in the spring. It is announced.

Location books in triplicate for sale at the Bonanza.

California Leads Electrically

Herbert Hoover, in his report to President Harding as Chairman of the Federal Super Power Commission, says California Public Utility Companies are not only transmitting electricity over longer lines than have been employed elsewhere, but that "nowhere is power so cheap as in California."

These triumphs have been achieved by the Public Utility Companies under State Regulation.

This Company is proud of its record as a pioneer of the industry, in having built the longest high voltage transmission line in the world, thus demonstrating the feasibility of the Colorado River and Atlantic Seaboard Super Power Projects. It is proud, also, of the fact that to a greater degree than any other Company, it has carried electrical service to the undeveloped and sparsely settled sections of the Southwest, thus making possible the reclamation of great areas of land and the building up of new industries and communities.

The Nevada-California Power Company

AMUSEMENTS

LIGNEL BARRYMORE AT BUTLER THEATRE TODAY

"Boomerang Bill," the Cosmopolitan creation by this name, featuring Lionel Barrymore, is a memorable drama. "Boomerang Bill" is a Chicago gunman, in hiding in New York. He is a crook, but when circumstances take him into pleasant fields he turns honest. Then comes a great dilemma. The girl he loves is in dire poverty. Her mother requires expensive medical attention and a change of climate if she is to live. Bill decides to do one more crooked job for their sake. He is caught and goes to prison. The girl pledges herself to await his release, but she cannot because her mother's rapidly failing condition requires her to marry, and she provides for both. Bill tells her to accept. Months later, when he is free, he comes home happily caring for her baby and happy in her husband's companionship. He steals quietly away without letting her know of his presence. The picture is beautiful and large is not a moment that lacks in interest. The Review completes the program for today.

CRUMLEY REMEMBERS FRIENDS WITH COINS

The editor of The Bonanza acknowledges the receipt of a sparkling brand new silver dollar coined by the San Francisco mint, and which is a gift from J. Grant Crumley. Mr. Crumley sent for 20 of these new minted dollars which he is distributing among friends. They will no doubt be greatly cherished by reason of the fact that it has been found they will not stack and as a result the government has decided to stop minting them and has called in the issue.

Our job department is unequalled in southern Nevada. A trial order will make you a regular customer.

HAS RAISED A NEW STANDARD FOR BAKING POWDER

Because it's made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful food.

Because it possesses the greatest leavening power.

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is more economical—you save when you buy it and you save when you use it.

These are a few of the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

Try it—always buy it. Your grocer can supply you.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

MISS NEVADA NYE ENTERTAINS AT DINNER

The high school boys of the basketball team were entertained at a three-course 6 o'clock dinner at the home of Miss Nevada Nye last Saturday evening, and also complimentary to Miss Lois Askin in honor of her birthday. The Tonopah high school colors, red and white, were carried out in the table decorations. Later in the evening the guests departed and met at the home of Mrs. E. Miller, where they continued the celebration of Miss Lois' birthday. Music and games were the diversions. Refreshments were served, consisting of sandwiches, coffee and cake. Those participating in the dinner were:

Misses Lois Askin, Stella Bisher, Madeline Erickson, Margaret Kennedy, Nevada Nye; Messrs. Jay Henderson, Earl Byrne, Albert Wenzel, Harvey Humphrey and Harry Anderson.

Be sure and attend the basketball game at the high school gym Saturday evening between the Tonopah and Carson teams. Dance will follow. Admission 50 cents. J24
